HIGH QUALITY TOOLS

DUAL POWER

choose your battery

DISCOVER DUAL POWER. THE NEXT GENERATION OF CORDLESS TOOLS

THE BATTERY PLATFORM DUAL POWER CONSISTS OF A 20V AND 40V BATTERY, THAT COMBINE WITH A WHOLE RANGE OF CORDLESS TOOLS.

THE CONCEPT IS SIMPLE BUT STRONG. THE 20V BATTERY FITS ON THE 20V TOOLS, THE 40V BATTERY ACTIVATES THE 40V TOOLS. BUT HERE IS WHERE THE REAL INNOVATION STEPS IN: YOU CAN ALSO CLICK THE 40V BATTERY ON THE 20V TOOLS. DOING SO WILL DRASTICALLY PROLONG THE RUNTIME.

A GREAT NUMBER OF CORDLESS TOOLS – POWER TOOLS AS WELL AS GARDEN TOOLS – WORK WITH THIS INNOVATIVE BATTERY PLATFORM AND PROVIDE MAXIMUM POWER AND FREEDOM. BATTERIES AND CHARGER ARE SOLD SEPARATELY.

GET STARTED IN 3 STEPS

1. CHOOSE YOUR DUAL POWER TOOL

2. COMBINE WITH A 20V OR 40V DUAL POWER BATTERY

3. DON'T FORGET THE CHARGER

BATTERY TYPE

A BATTERY-POWERED FUTURE

Battery technology has given the DIY market a whole new dimension. The improved generation of batteries have helped to produce lightweight cordless tools with much more power and a longer runtime. Easy to use, no cables and no worries.

Battery powered tools have all the potential to outperform not only the corded tools, but also those that work on gasoline. The reduction in noise, fumes and carbon emissions are all part of the motivation behind the switch. It is clear that the future of the DIY-industry lays in quiet and eco-friendly battery-powered equipment.

BENEFITS OF A LITHIUM-ION BATTERY

NO MEMORY EFFECT

CAN BE RECHARGED AT ANY TIME, NO MATTER WHAT LEVEL OF ENERGY CAPACITY IT RETAINS.

HIGHER ENERGY DENSITY

PRESENTS MORE ENERGY IN A SMALLER VOLUME

ECO-FRIENDLY

SCORES HIGH ON ENVIRONMENTAL FRIENDLINESS

LOW SELF-DISCHARGE

WILL NOT LOSE CHARGE BETWEEN USES

LONGER LIFESPAN

LASTS A LONG TIME, WITHOUT PERFORMANCE LOSS

LIGHTWEIGHT

GUARANTEES LESS USER FATIGUE AND MORE EASE OF USE

BATTERY CAPACITY

The higher the capacity, the longer a battery will run. The 20V battery has a capacity of 1500mAh or 2500mAh (Samsung). The 40V battery has a capacity of 2600mAh when used on a 40V tool, but delivers an impressive 5200mAh when combined with a 20V tool.

How is this possible? The 40V battery lends itself to both a series or parallel connection of its Li-ion cells. In a series connection (40V battery on 40V tool), each cell adds its voltage potential to obtain the double voltage of 40V. By connecting the Li-ion cells in parallel (40V battery on 20V tool), the result is an output with a double capacity: it will boost the capacity from 2600mAh to 5200mAh.

JAPANESE MABUCHI MOTOR

Mabuchi has become the world's foremost producer of small brush motors and continues to set the standard for the industry. A Mabuchi motor runs quietly, is strong and durable.

BATTERY
NOT INCLUDED

This 20V drill/screwdriver is light and easy to use and has an impressive power to tackle all your DIY tasks around the house. It has two speed settings to choose from, one being 0-450min⁻¹ and the other being 0-1700min⁻¹, so you can always match the speed to the task at hand.

It has a high torque of 50Nm and 21+1 different torque settings. The keyless chuck allows a quick change of bits. On top of that, a built-in led light illuminates the work surface for easier drilling in dark places and a soft grip increases the comfort drastically.

Combine with a 20V or 40V DUAL POWER battery.

This 20V impact drill/screwdriver is perfect for driving and drilling through wood, metal, plastics and masonry. It has 21 torque settings, one drill mode and even an impact function for maximum drilling performance.

The drill capacity in concrete is 12mm, in steel 8mm and in wood 22mm. When choosing for the impact function, you get a maximum impact rate of 24000 impacts per minute. It has two speed settings to choose from, one being 0-450 min⁻¹ and the other being 0-1700 min⁻¹. The low speed range is perfect for high power and torque application and the high speed for fast drilling applications.

The POWDP1520 has a keyless chuck with lock function. This makes it very easy to change bits and drills. A built-in led light illuminates the work surface for easier drilling in dark places. The soft grip increases the comfort drastically.

Combine with a 20V or 40V DUAL POWER battery.

This impact wrench is ideal if you want to fasten or unfasten bolts and nuts in metal or wood. It delivers an extra high tightening torque of 350Nm and can count on a powerful 40V Li-ion battery for a superior performance. Even rough car wheel bolts are loosened in no time.

The impact wrench has a variable speed from 0 to 2000min⁻¹ and an impact rate from 0 to 3000 strokes per minute. That way you can always set the optimal speed for tightening in different materials. An integrated led light will illuminate the work area, even in dark places.

The compact and ergonomic shape of the handle allows you to work longer without tiring. A handy belt clip holds the impact wrench when you need your hands free.

QUICK BLADE CHANGE

The jigsaw POWDP2530 with 4 pendulum positions guarantees an accurate sawing performance. The pendulum action lets you saw faster and in harder materials. The adjustable aluminium base allows the blade to tilt up to 45° to the left and to the right, so you can also make precise angled cuts. The maximum cutting depth of this 20V jigsaw is 80mm in wood, 12mm in plastic and 10mm in steel, with a rotation speed of 0-2400min⁻¹.

This saw is equipped with a side guide and a high precision laser for precise and straight cuts. The blades can be inverted easily thanks to the quick blade change system. The dust extraction adaptor permits a connection to a vacuum cleaner for a clear view of the cutting line and a clean, dust free working environment.

Combine with a 20V or 40V DUAL POWER battery.

PROTECTIVE NOSE

This 40V telescopic hedge trimmer has a 600mm blade fixed on an adjustable head that rotates in 2 directions. The absence of a cable results in a greater freedom of movement. The laser cut double action blades has a 20mm working width.

No hedge is too tall, no shrub is too wide for this hedge trimmer since the aluminium shaft allows an extension from 2m to up to 2.6m.

For the ease of work and more safety, this telescopic trimmer is delivered with a soft grip and a carrying belt. After trimming, this tool can be safely stored thanks to the blade cover.

Combine the POWDPG7538 with the 40V Dual Power battery.

PROTECTION

This compact and light 20V grass trimmer with a cutting width of 250mm is a useful and handy garden tool to trim lawn edges or borders. No cable will disturb you while trimming. For your comfort this grass trimmer comes with an adjustable auxiliary handle, an extendable aluminium shaft and a rotatable head.

The telescopic aluminium shaft extends up to 620mm and the adjustable handle can be set in three different positions for a perfect trimming position. The rotatable cutting head allows you to work effectively at a comfortable working angle. So you can cut accurately around flower beds, under bushes, around trees and fence posts etc.

The 4,5m thread lengthens automatically every time you stop and start the trimmer again. No need to tap the head on the ground anymore, which will save you a lot of time. You can completely focus on the trimming job.

You can work fast with this easy-to-use grass trimmer. Two small wheels will guide you while trimming the more difficult edges. Thanks to the flower protection bar you don't even have to worry about damaging your delicate plants while edging your lawn.

Combine with a 20V or 40V DUAL POWER battery.

This 40V grass trimmer with a cutting width of 300mm is a useful and handy garden tool to trim lawn edges or borders. No cable will disturb you while trimming. For your comfort this grass trimmer comes with an adjustable auxiliary handle, an extendable aluminium shaft and a rotatable head.

The telescopic aluminium shaft extends up to 900mm and the adjustable handle can be set in three different positions for a perfect trimming position. The rotatable cutting head allows you to work effectively at a comfortable working angle. So you can cut accurately around flower beds, under bushes, around trees and fence posts etc.

The 5m double thread lengthens automatically every time you stop and start the trimmer again. No need to tap the head on the ground anymore, which will save you a lot of time. You can completely focus on the trimming job.

You can work fast with this easy-to-use grass trimmer. The edge guide wheel will guide you while trimming the more difficult edges. Thanks to the flower protection bar you don't even have to worry about damaging your delicate plants while edging your lawn.

Combine with the 40V DUAL POWER battery.

This 2-in-1 40V brush cutter can also be used as a grass trimmer if the cutting disc is replaced by the spool (both included). The cutting disc has a cutting width of Ø255mm and the 4m twisted thread has a cutting width of Ø330mm. It will suit all garden trimming tasks with no restriction of a cable and a large freedom of movement. The double thread is foreseen with a tap & go thread lengthening system.

The POWDPG7550 with bike handle can be used at a high speed or at a low speed. Switching is easy with the speed selector.

Combine with the 40V DUAL POWER battery.

GARDEN WITH EASE.

Battery-powered lawnmowers are the future. They are easier to use than electric or gasoline lawnmowers and permit total freedom of movement. On top of that, they combine a quiet operation and eco-friendly performance without any sacrifice on results.

MULCHING FUNCTION

This 40V cordless lawnmower has a twin battery system. When two batteries are inserted, the lawnmower will automatically switch to the second battery when the first one is discharged. This drastically prolongs the runtime.

The lawnmower features a strong, brushless motor and comes with a solid steel housing. It has a cutting width of 400mm and the cutting height can be set in 7 stages from 25 to 75mm. The grass can be gathered in the 50 liter collect bag or can be mulched to feed the soil. A grass box warning system will let you know when it's time to empty the grass box.

Combine with one or two 40V Dual Power batteries.

Great power, a long working time and a complete freedom of movement. This battery powered chainsaw combines all the benefits of an electric or petrol chainsaw and leaves out the possible disadvantages.

The easy to use POWDPG7575 has a brushless motor, which means a longer lifespan and a longer autonomy. On top of that, it increases the user's comfort by reducing the amount of vibration drastically.

The 40V chainsaw with sturdy 300mm Oregon bar and chain is equipped with an electrical brake system.

Combine with the 40V DUAL POWER battery.
